

# Comet Alumni Spotlight

## Erin Moye

St. Thomas Class of 1997

### Educational Background:

I attended Peoria Notre Dame High School after St. Thomas and Saint Louis University in St. Louis, MO for undergrad where I graduated with a BA in Communications.

**Recent Achievements:** Recently appointed as the Head of Content Production for Visionaries, a professional network that brings discipline-specific creatives together to connect on talent and solutions for the Estee Lauder Companies.

I am working on a personal partnership deal with a leading global creative community platform that connects creatives at brands with the who's who of contemporary talent.

I am developing a platform specifically designed for working women and mothers connecting them to high quality resources designed to connect them with local resources to help support their everyday lifestyle needs, giving them back much needed time to spend on doing the things they love.

Lastly, my son Harrison and I are working with a local Orphanage on raising money and collecting old toys/books from friends to help fund programs for the children who live there (ALL his idea btw, proud mama!).

### Family:

I live in Los Angeles, CA with my son Harrison and our 19 year old cat George!! We love to travel, sail and do beach cleanups.

### Favorite experience as a St. Thomas Comet:

There were probably a few but my favorite was the 8th grade talent show where me and my girlfriends dressed up as the Spice Girls and lip sang "Wannabe" (sigh, but also awesome)...I was Ginger Spice (I'm not sure the thinking on this one but I'll own it).

### St. Thomas teacher who made an impact on you:

My 4th grade teacher Ms Guard, she was always so kind to me and she was beautiful!! All the boys had crushes on her lol (ahem Jimmy B)...Anyway, she took me under her wing during a difficult transition and took me for ice cream a few times. I also learned the value of kindness and how to address difficult situations with grace and respect

### Piece of advice for current Comets:

Simple, it's the small things that make the biggest difference. Smile at a stranger, pick up a piece of trash on the street and throw it away, call a loved one just to say hi, give a friend a hug and tell them you love them...Laughter, love and kindness are the keys to success in everything you do, from work to family to friends to the planet...if you bring light and love to people on a continued basis you become the glue, the person they want to be around and the ability to make their days just a little bit better....added bonus, you will feel it too :) Go make this world a better place little ones, you are our future!
