

# Comet Alumni Spotlight

## Jameil Abou-Hanna Class of 2004

**Favorite experience as a St. Thomas Comet:** The basketball tournaments always were a great time, filled with passion and pride for our school.

**St. Thomas teacher who made an impact on you:** They all were excellent, however, Mrs. Crawmer stood out to me as someone who always believed in me. She eventually was a reminder to believe in myself.

**Piece of advice for current Comets:** The world is your oyster... as long as you play your cards right.

**Educational Background:** I attended St. Thomas from 1996-2004, followed by high school at Richwoods High from 2004-2008. I studied Chemistry and Spanish at Bradley University from 2008-2012, medical school at the Medical College of Wisconsin from 2013-2017 and Residency at OSF St. Francis Medical Center in General Surgery from 2017-2022. I am currently completing a fellowship in bariatric (weight loss) surgery in Cincinnati OH.

**Recent Achievements:** getting a girlfriend my parents are happy with.

**Family:** I have 2 parents, three siblings, a sister-in-law and a beautiful niece and nephew.
